## About Me

Hi, I'm Kabir Maniar, a BS Data Science and Application student. Ever since 8th grade, programming has been my passion. Learning about new technologies excites me, and I am always eager to expand my knowledge. I also dabble in 3D modeling, and I have a particular interest in vehicles, especially cars. I like to learn about how these complex machines work in harmony. I'm driven by my passion for technology and my desire to learn and grow in my field. I'm excited to see where the future takes me!
